Summary

Highly motivated and detail-oriented graduate holding a Master of Computer Application, adept in ,Python, Java and AI and Data Science. Possesses practical experience through academic projects, internships, and extracurricular initiatives. Demonstrates strong analytical, problem-solving, and teamwork skills, and is eager to contribute to innovative software development projects in an entry-level position while continuously enhancing technical expertise.

Experience

Raajsans Infotech Solutions Pvt. Ltd.

Machine Learning Intern.

- Developed a full-stack web application leveraging ML and NLP to digitize and validate handwritten forms, automating accurate data extraction.
- Integrated multi-format uploads with Excel and organization databases, improving data accuracy, efficiency, and reliability.

Projects

Data Analysis and Visualization us ML ([GitHub](#) [🔗](#))

Python, Flask, React.js, Pandas, NumPy, Scikit-Learn, Matplotlib, Seaborn

- Developed a full-stack data analysis and visualization web app using Flask, Python, and MySQL, enabling users to upload datasets, perform EDA, and build ML models with Scikit-Learn, Pandas, and Matplotlib

RealTime Chat ([GitHub](#) [🔗](#))

Python, Flask, socket.io, Bootstrap

- Developed a real-time full-stack chatbot application enabling live user interactions with automated responses and analytics. Implemented an event-driven architecture with Socket.IO.

Language Translator ([GitHub](#) [🔗](#))

Python, Django, React.js, NLP, Scikit-Learn, Translation library/API

- A language-translation web application using a front-end built in React and a back-end in Django, enabling users to input text and instantly receive translations across multiple languages.

Sentimental Analysis on Mental Health ([GitHub](#) [🔗](#))

Python, BERT, Tensorflow, Pytorch, Scikit-Learn, NLTK, Matplotlib, Seaborn,

- Developed a BERT-based sentiment analysis model to classify mental health text into multiple emotion categories with high accuracy, data preprocessing, EDA, visualization, and transformer fine-tuning to generate and interactive dashboards.

Technologies

Languages: Python, Java, C, C++, JavaScript.

AI/ML Tech:Tensorflow, Pytorch, Scikit-Learn, NLP, Matplotlib, Seaborn.

Automation Tech: Jenkins, Docker, Azure, Selenium, Git, GitHub, Data Version Control, REST API, Maven,

Tech/FrameWorks:Django, Flask, FastAPI, SpringBoot, React.js, Power BI, Tableau.

Database: MySQL, PostgreSQL, Oracle(SQL), PL/SQL, MangoDB, SqLite3.

Education

Babasaheb Bhimrao Ambedkar Bihar University

Bachelor of Computer Application.

K.R. Mangalam University

Master of Computer Application.
